

Cool High school students!

High school General Athletic Festival and Cultural Festival have hold in Ishikawa prefecture.

This year's Fes have been held over 2 weeks because high school athletic committee could not keep gyms due to Noto peninsula earthquake.

But all events have completed.

All students, athletes, have trained hard.

If they lose, they must retire club activities.

And must study hard for entrance examination.

I saw their practicing at gym and ground.

The figure that high school students practiced hard were "Cool".
