

Start

New-year has started.

Fresh students and passed students go to school.

Perhaps they have the hopes and aims.

Now what do the teachers do this time?

Teachers must make the good atmosphere that students want go to school.

But there are important points on this season.

Pleasure is important but rule is same.

Most student wants “new-start” or “try again”.

So teachers must treat students politely and carefully.

And teachers must have plans (prepares) and confidence.

The last , Check ! last year’s communication-lists about students or requests from parents.

I wish this year were nice to students and teachers !
