

Abandon all

Not only teachers but all workers are busy.

Teachers have still had many jobs.

The jobs won't decrease.

But officers and committee request teachers reform of working.

How do teachers work?

The answer about that is "abandon all".

For example, teachers must change about estimate.

Teachers estimate tests, notebooks, worksheets, daily, and so on every day.

I think that teachers do not have to write comments to all.

Teachers should almost estimate with writing comments, but often teachers had better use stamps and seals(☆,○,△ : color are gold and silver) .

They don't complain, because students like seals.

One idea of promoting work style reform is "abandon of all".
