

Atmosphere

Last week, during winter vacation, the children living my neighbor talked their friends with using English.

I saw them, I felt happy and pleasure.

I think that children like English very well.

So teachers and school must make good curriculum about English for pupils.

I want teachers to make the English friendly atmosphere with teacher's room.

I belong to school affair division elementary school and junior high school education group.

The group has 12 teacher's consultants.

12 members make a rule to read short sentence every week.

Because elementary school teacher must teach English at school, I want make the English friendly atmosphere with my group.

If teachers like English, pupils like English!
