

# BBQ

I open BBQ party in front of my house on August every year.

This BBQ is for graduated students who belonged badminton club of junior high school that I worked.

They become university's students, so I try to quit this BBQ.

But some students request to open this BBQ.

When I remember my childhood, my teachers of elementary school and junior high school keep company with us after school or holidays.

It was very fun and remained my memory.

So this August, I plan to open BBQ.

And I announced this BBQ with using Twitter.

I don't know how many persons take part in BBQ.

But I think this BBQ is the chance to meet friends and talk with.

I and my wife have started preparations.
