

Distinguish

Teacher is busy.

Every teacher has same works, since 8:30 until 16:00.

Though the teacher is smart (He can work very well), he must teach 50 min (45 min).

If this is company, good worker do work with a little time.

Not good worker do same work with many time.

So every teacher does own work after classes.

Some teachers do own work after club activity.

He starts his work after 19:00 O'clock!

It is not easy to return his home early after his work.

Recently teachers do club-activity 5 days in a week.

Teacher must have rest on Sunday, so he can do his work on Wednesday.

I think teachers don't have to write comments on student's note book every day, he should check with using stamp or seals.

We must do with device and change simple work.

BUT this change isn't idle.

Teacher must do his regular work hard!

We must distinguish need work from useless one.

(But it is difficult.)
