

Heated

I feel “Heated rather than Hot

It was over 40 degree centigrade at Tajimi city Gifu prefecture.

All municipal elementary school and junior high school will plan to summer vacation.

But it is extremely hot in this week.

Sadly 1st.grade elementary school pupil died on education activity out of school.

If you are school master, what should do like this hot day?

Most important thing and only thing is what teacher does not make pupils and students hard work.

For example, ban of sports and outdoor activities and classes of afternoon is cancel.

Anyway most of pupils and students can't put up with this hot weather because of living in the comfortable cool houses.

And weather condition has changed.

Today's hotness is not ever one.

So teachers and schools must correspond proper way.
