

Infant education

During Golden week I worked volunteer activity at preschool.

The preschool is near my house and my daughter and son were lived there.

This preschool was so old that was decided to rebuild on this place.

So this week this preschool must move to temporary place.

I helped to move teaching aid and so on.

I felt that there were many and various things.

Though there were a few numbers of children than elementary school, there was many and various teaching aid.

They were books, tricycle, little shovel, athletic aid, etc.

I thought that elementary school is the place to study, but preschool is the place to live and study.

Teachers are Mother and Father and preschool own is home or family.

So children must play there.

This play during preschool makes a good personality and ability.

幼児教育

連休に近所の保育園でボランティア活動を行った。

娘と息子が世話になった園だ。

園は古くなり、改築のため、仮の敷地へ引っ越しすることとなった。

それで、引っ越しの手伝いに行った。

保育園には多くの物がある。

小学校に比べ子供の数は少ないが、教材の数と種類は多い。

本、三輪車、小さなシャベル、体育器具など。

考えてみれば、小学校は学びの場で、保育園は生活の場だ。

先生はお父さん、お母さんであり、園は家庭である。

だから、子供は遊ぶことが大切で、それが、子供の人格と可能性を形成すると考える。
