

Moral text

Last day, MEXT announced authorized Junior High School's moral text.

8 companies passed official approval of MEXT.

The newspapers introduced each characteristic.

Some use MANGA, some use hero's story.

But some issue happened.

That is self-estimate of student and pupil about each terms with using number level.

Estimate of moral class is not admitted with using number level.

So when teachers estimate students and pupils, teachers won't use self-estimate of students and pupils with number level.

Though I have not seen real text book, some news-paper reported that some text books use self-estimate.

I like teaching moral.

But there are many difficult things like that about moral class, so I am afraid that teachers avoid teaching moral.
