

Nay

Paper shows the news about the “Modified working schedule system”.

The Central Educational Council discuss about it.

Teachers’ long working time is social issue.

Local government makes the rule about teachers working time.

Almost 7 hours 45 minutes in a day and 38 hours 45 minute in a week.

This system makes long working time term and short working time term.

If local government uses this system, many issues will happen.

For example, April is busy month.

Now working times are 7 hours 45 minutes and 45 minutes rest time, so teachers must stay at school 8 hours 30minutes.

If it becomes 10 working time (rest time are 60 minutes), teachers must stay at school 11 hours.

I am afraid of teachers’ health.

Teachers have various back-ground.

Some teachers take care of children and old parents, some teachers are long time commuter.

The MEXT may give up teachers’ business reform.
