

Non attendance

If your classroom has non-attendance student, what should you do at last week of summer vacation?

Does she or he come to school?

According to my experience, she or he is not going to go to school.

(Perhaps she or he will continue to be absent for school.)

I think class room teacher must do 2 things.

First of all, teacher must clean up her or his desk so as to attend.

Next, teacher must take school activity schedule to her or his house.

On both case, teacher must express “I welcome to you.” and “I am happy to meet you.”

If possible, school chooses teacher who go to her or his house instead of classroom teacher and class room friends make her following system.

Maybe goal is far away, but this program will make good results in the future.

She or he and parents and family see and thanks teacher’s efforts.
