

## Speaking

Students who have learned foreign language education enter junior high school (JHS).

JHS foreign language teachers must change how to teach foreign language at JHS.

MEXT and education committee announce the importance of talk (amount of talk).

JHS foreign language teachers try performance test and daily conversation that students want to talk. (Not Q&A talk but argument)

But you think calmly.

Number of JHS foreign language hour is only 140 in year.

Teachers can't make that activity much time in years.

Teachers must teach students 4-Activities (Reading, Writing, Listening, Speaking).

But We (teachers, politician, governor etc.) must make students good English speaker.

What shall JHS do?

I have an idea.

All JHS teachers, not English teachers but other subject teachers, have a speaking time with 1<sup>st</sup> grade students with only using English on special activity time.

Poor English OK, Mistakes OK.

Students discover "Oh Teacher English good!", and students have many speaking chance.

But this activity is too difficult. But I want try it!

English is not only for English teachers but for all.
