

Training

If we can talk to foreigner with using English, the best way is conversation.

I heard that young person go to church to talk with monks.

So my residence is near Tera-machi (Temple-town) and Nishi-Chaya-Gai (Western old restaurant direct).

There are many foreigners who visit from Asia, Europe, US and so on.

Every weekend I meet them.

Someone lose their way, they see map or smartphone.

Recently I call to them. "May I help you?"

Some say "No problem", some ask to me the way.

Last Saturday I met aged couple, I call to them "May I help you?"

They said "We want to go Nishi-Chaya-Gai"

I said "Near here within 1 minute. I take you there."

"Thank you."

"Where from?"

"UK"

"Oh UK divorce from EU."

"It's terrible!"

"Have a good trip."

That's all. So I feel happy.

Last Sunday, I met couple at Hirokoji crossing on my way to public bath.

I call to them "May I help you?"

"Hirokoji Bus stop"

"There are some stops, Where do you wanna go?"

"Left roop"

(They will get on Kanazawa shu-yu bus = Kanazawa Loop Bus Left Loop)

"You see over there. Have a nice time in Kanazawa."

That's all. I went to public bath.

I think that don't worry mistake of grammar, pronunciation, words.

It's important communication with people!
