

Winter vacation

It will be 2019 soon.

Now, school is winter vacation, so students have a little free time.

The winter vacation is different from other long term vacation, because there are some events, for example Christmas, year-end, new year party, winter sports, etc.

It is good time when children stay with family, relative and friends.

And children should work to help their family.

When I was teacher, I gave students a little home work for winter vacation.

The home work is A3 type only 1 paper.

It is science words and easy calculations.

I think that winter vacation is good time when children look back their life, study and think their future rather than homework.

Students are busy all over the year.

So, students had better stay with silence and calm with family.

Thanks for your reading and have a nice 2019!
